

Bandoliers

Strap length	imperial	metric
#0	50"	127 cm
#1	54"	137 cm
#2	58"	147 cm
#3	62"	157.5 cm
#4	66"	168 cm

Measuring for the strap

Ideally you should take this measurement whilst wearing your soldiers coat (or whatever you would normally wear when using your bandolier e.g. soldiers coat over a doublet)

Take a tape measure and loop it from your waist on your right hand side, over your left shoulder and back down to your waist, as you would wear a bandolier.

Loop the tape measure around like this. The bullet pouch should hang **at your waist**, not against your hips or thigh.
